

Spring 2017 Frederick Steeplechasers Marathon Training Program

Training Program Purpose: To prepare runners for their upcoming marathon

Goal Race:

Gettysburg North South Marathon
Sunday, April 23, 2017

Program Led by:

- Ruth Taylor: marathontraining@steeplechasers.org

Description: A beginner/intermediate program along with an advanced program. Participants must have a base of at least 1 year of regular running (at any speed) with a current comfortable long run of 8-10 miles and at least 15 miles/week. (this is not done to exclude anyone but to help protect against injury). This is a free program for all Steeplechaser members that is run by volunteers. It provides a great way to improve your running and meet other runners in our community. We will provide support, advice, a great attitude and even some happy hours and other social events. We will try our best to answer your questions or we will connect you with someone who can.

Weekly Group Runs:

- Tuesdays 5:20PM optional early start for advanced group for extra miles/ 5:50PM warm-up/ 6:00PM group start, Talley Rec Center, Baker Park, Frederick
- Saturdays 7:50 warm-up/ 8:00AM group start, Various Locations

We have two group runs each week but we will provide a full training schedule. Each runner will be placed in a pace group and we will ask for volunteer pace leaders who will be able to attend most group runs. Our Tuesday run will be tempo work where we will work on building speed and our Saturday morning run will be our “long slow run.” We encourage the participants to communicate with others in their pace groups to encourage, support and run with one another on our “off days.”

Schedule: Everyone should come ready to run and leave time for parking – we will start promptly with a warm-up/dynamic stretching. At the finish of the run, each pace group will do their own stretch and depart when ready.

Introduction: The Frederick Steeplechasers are a group of runners from our community with very different backgrounds and levels of running experience. We have runners that started running track in high school and want to continue running competitively throughout their adult lives. We have runners that started running in their 30's, 40's, 50's and even 60's. Our youngest members are elementary school kids and our oldest are in their 70's and beyond. We have people that run to socialize, people that run to prepare for races, people that run to support their love for food or beer, people that run to push themselves, people that run to lose weight, people that run to relax, and people that run because they just love to run. We don't care why you run we just want to support you and we want to provide you an environment to help you thrive. You will meet fast runners, funny runners, inspirational runners, ultra-runners, chatty runners, and every other kind of runner. You will see how different we all are but how we all share a common thread; we are ALL RUNNERS! Some of you will run your first marathon this fall, will check it off your bucket list and move on. Others will go on to try and run a marathon in every state. Some will decide that an ultra is their next big goal and will maybe even run a 100 mile race someday.

These training programs are to prepare you for your goal race but they can be more than that if you want them to be. I met a group of people in the 2013 Fall Marathon training group that I became good friends with and we still communicate almost every day. So if you're nervous, don't be because we are all here to support each other. There will be a wealth of knowledge and experience from your coaches, our members, and our community. In our club we have nutritionists, physical therapists, ultra-runners, trail runners, personal trainers and runners with 50+ years of experience. We also have *If The Shoe Fits* which not only provides a great place to purchase running shoes and gear but a staff that will help you figure out everything from in-race nutrition to answering where a good place to go trail running is.

About this training program

- Don't get overwhelmed and please communicate any concerns with us.
- It is great to focus on your goal because it will drive you to get up on a hot or cold morning when you feel like sleeping in, or get up that one last hill but please enjoy the journey. This is the best part about training with a group. After race day we ask everyone how their race went but so many people respond not by telling us about their race but by saying how much they will miss the training runs, happy hours, and friends they made along the way.
- Support the runners around you. It doesn't matter if you just say, "great job" or if you finish your run and then go back to find others and run in with them, just support each other.
- If you're here to get faster we'll help you push yourself mentally and physically. I was way out of my comfort zone during my first training program but it taught me how to dig deep which is pretty handy on race day.

Must Have:

- Running shoes
- Weather appropriate gear
 - Winter: Hats, gloves, warm socks, etc. reflective gear for evening runs, water, fuel.
 - Summer: Water, fuel, light weight breathable clothing, Body Glide (or other lubricant) to prevent chaffing, sunscreen, bug spray for C&O canal runs, hat/visor or sunglasses
- Running watch/GPS or smartphone app (e.g. mapmyrun, runkeeper)
- Water bottle and gels if you use them. Our Saturday long runs are not always supported so participants must prepare accordingly to stay hydrated and fueled. Hot weather and sweating means you'll need to make sure you're hydrated with water and electrolytes. **Please make sure you eat and hydrate properly the night before and throughout the day. If you have any questions on hydration or fuel please ask us.**
- Comfort level to be able to make smart running decisions
- Commitment to be able to run on your own on our "off days" and if you miss group runs (important to keep up your training)
- Bright clothes or a bright running vest for our road runs. It is VERY important for us to be seen by vehicles. The more bright clothes in our group the easier it is for us to be seen.

SAFETY:

- It is very important to be hyper-aware of your surroundings when running.
- Wear a bright piece of clothing or a vest, especially on our Saturday runs. We want to be seen, the more pieces of bright clothing, the easier it is for drivers to see our group. Gray shirt and black shorts on gray and black roads make you invisible to drivers until they are right on top of you. Wear reflective gear and bring lighting if running at night.
- Ensure that you have identification on you. Road ID or license.
- Please carry a cell phone in case you get lost or need help.
- **Cross streets CAREFULLY and never assume that cars see you, because they usually don't.** Better to stop and wait to cross than to take a chance.
- **This part is VERY important so please read:** If you are running in the road rather than on the sidewalks, be even more careful. Please run on the LEFT SIDE OF THE ROAD **AGAINST TRAFFIC** AND DROP INTO SINGLE FILE IF THERE'S A CAR COMING. **If a car does NOT move over or is approaching a hill or turn where they can't see oncoming traffic, then it's our responsibility to GET OFF THE ROAD.** Please wave and thank all drivers that yield to us, we want to have a good relationship with the people driving the 4000 pound hunks of steel.
- If you are in a group, don't assume that if one person runs to cross a street that it is safe for everyone to cross.
- Headphones: We ask that you don't wear headphones during our group runs. Hearing is an important sense when running near cars and other people. It really isn't safe to wear them anytime but everyone can make their own decisions regarding their personal safety. If you need your music try only using one headphone. (This is just a recommendation, it is up to each individual to make decisions for themselves)

Emergencies: If there is an emergency, please loudly call for help so that someone can let the pace leader know. 911 should be called immediately if necessary. At least one pace leader per group should have a cell phone. After 911 is called, please contact Ruth@ . Put our numbers in your phone in case you get lost or just need to let us know that you're having a longer than normal run.

Weather: The summer thunderstorms are very unpredictable and can come and go very quickly. We will run in the rain. If we hear thunder that is approaching, we will return to our cars and cancel the run. If we are already running and can't get back to our cars safely, the groups should seek shelter. If we know within 20 minutes that a storm will definitely be coming, we may cancel ahead of the run. We have also canceled due to ice or other severe winter weather. Cancellations will be posted on Facebook and through a text message service. Here's the link to sign up for weather notifications, make sure to select "Marathon Training"
https://www.rainedout.net/team_page.php?a=ce19ac98033c52a64599

Hydration and Nutrition: Staying hydrated and fueled is very important, not only to your performance but to your safety. As we build up our mileage you need to be hyper aware of your body's needs. Hot weather and sweating means you'll need to make sure you're hydrated with water AND electrolytes on the longer runs. Please make sure you eat and hydrate properly the night before and throughout the day. Please bring a handheld, waist pack, or hydration pack to even our short runs in the extreme heat. Cold weather and hydration are tricky. You won't feel thirsty as often but it is still very important to hydrate. Please ask if you have ANY questions about fueling before, during or after our runs.

Pace & Distance:

- Pace and distance are tricky, especially for newer marathoners who are building up to longer race distances
- It's a balance of pushing your body but not pushing too hard too fast
- Our Saturday, "Long Slow Run" should be at CP (Conversation Pace)
- Our "tempo" pace will be based on the max effort you can sustain for 60 minutes.
- Each type of run serves a different purpose but all will prepare your body for race day
- Here's a link to a little more about paces: [http://steeplechasers.org/wp-content/uploads/2014/12/Key-Paces-for-Recreational-Runners.Rev .pdf](http://steeplechasers.org/wp-content/uploads/2014/12/Key-Paces-for-Recreational-Runners.Rev.pdf)

Social: This program is meant to be social! Please talk to each other and get to know each other's story. You will be meeting local runners of all ages and running abilities. The Frederick Steeplechasers Running Club has resulted in life-long friendships. Please hold conversations to help motivate each other and encourage each other along our journey. Watch out for each other and let your coaches know if you are concerned about someone you may see struggling. If you are a seasoned runner and know a lot of people, make introductions and talk to our newcomers. Don't be nervous – we are all here to help each other. Running together is a great way to stay motivated, especially during the summer heat or bitter cold of winter. We will periodically have post run happy hours, family ice cream socials, and breakfast.

Leaving the Run Early: If you decide to drop out of a run early because you need to leave or you don't feel well, please let someone know. If someone tells you they are leaving early, please let the coaches know that they are okay (remember to put our numbers in your phone).

Communications: We will be emailing the entire group before EVERY group run with a mapmyrun.com link to our route as well as turn by turn directions. We will also post every group run on the Steeplechasers Marathon Training Facebook Page. We ask that the pace groups also communicate with each other on a regular basis to keep each other motivated and to sometimes run together on our "off days."

COACH: Ruth Taylor is a reformed soccer player. She has been running all her life as part of sports but has only been running races since 2007. She is a running generalist... running all distances from our decathlon track series and 1 mile races all the way up to ultra-marathons. Currently and for the past two years, she has been a member of the Frederick Steeplechaser's Racing Team. The past 5 years she's completed over 35 races each year. Recent racing pursuits have been completing most of the MD RRCA race series (placing 1st, 2nd, and 3rd overall female) in the past few years and pursuing marathons in all 50 states. She has completed 4 trail ultra-marathons with two 50k's-including Catocin 50K and Stone Mill 50 miler. Except for the 1st marathon, all have been Boston qualifiers. To date, she's run 10 marathons in 8 states including a sweep of the U.S. major world marathons with time-qualifier entries at New York, Boston, and Chicago in the past year. She's looking forward to leading the Steeps Marathon group of which she has been an active participant since its origin. She's hopeful this marathon cycle will be a success for everyone! She's already committed to running 4 marathons in 2017 including Rock and Roll DC, Gettysburg, Chicago, and Rehoboth. She's hoping we can help each other meet or exceed our marathon goals for the new year!

Other resources within our program:

Billy Clem didn't start running until he was 37 in 2006. He's run multiple ultra races, marathons, and half marathons. He has coached the Steeps Half Marathon and Marathon Training Programs. He became an RRCA certified coach in 2015. "I love coaching the training groups and promise to provide a great positive atmosphere for strengthening your running by preparing you both mentally and physically. I'm inspired by and learn from both the newer and more experienced runners within each training group. I pride myself on helping each participant feel a sense of ownership of the group. I will share what I've learned (both the good and the bad) and lean on those within the community who know what I don't to help you reach your potential."

Jan Harris has been actively running since 2011. In 2012 she ran her 1st marathon and trained by herself. Since then she's run multiple marathons and ultra races. She has coached the Steeps Marathon Programs numerous times. She became an RRCA certified coach in 2015. She also loves running with her pup.

Although she lives in sunny Southern California now, she still assists fellow Steeplechasers by answering questions on Facebook and email.

"I love leading the training groups, because I have a passion for running, and overall fitness. I hope that my passion can help and motivate you, and many others. I also love how the training programs have forged and fostered positive healthy friendships and relationships... my training partners, who I met in these programs, are my best friends and my family! I am also excited to teach you all what I have learned over the years. I hope everyone comes out a stronger, happier, healthier runner- and I hope you all achieve your personal running goals!"

S. Nicole Davis, DPT, RRCA Certified Running Coach. Dr. Davis specializes in running injury prevention and management. She also serves as a consultant and coach to numerous youth and adult running organizations. She will be helping us set up a dynamic stretching/warmup routine before our runs.

Luanne Houck has been a Steep for 13 years and led the half marathon group last year and leads the Women's Distance Festival training every year. She is on a mission to run a half in every state. She is an RRCA certified coach. She is also an excellent resource to consult on using yoga for cross training.

Risa Clem has run Half-Ironman Triathlons, ultra races, marathons, & half marathons. She bounced back from hip surgery in 2013. She is a great person to talk to if you're dealing with an injury or just need help reaching new goals.

Mark Lawrence is our local running form guru with years of experience. He is a past Steeplechasers' President.. Want to run faster, reduce your injury risk, and feel better during and after your run? Mark's monthly Chi Running classes work on the fundamentals of running form to help you achieve your goals. He works coaching kids as well and manages most of the finish lines at our local races. He'll be demonstrating some running form basics for our group.

John Squared (John Leonardis and John Kippen) run ***If The Shoe Fits*** shoe store and are an endless wealth knowledge and all things running. Both are incredibly funny and incredibly generous with their time and knowledge. John Kippen basically knows every runner that has ever run in Frederick and has endless stories. John Leonardis and his wife Siobhan are big ultra trail runners.

Message from Past FSRC President, Pamela Geernaert

Welcome. Thank you for signing up for The Steeplechasers Training Program. Any time we sign up for something we are making a commitment. The commitment you made to come to this program is for you – your health and well-being. But it is also a commitment to your family, your spouse and your children and grandchildren. It is a commitment that you will grow to be a healthier you. Yes, you will learn to run, but you will also learn to listen to your body. You will learn to take time to nourish yourself properly and appreciate yourself and what you can do. Along the way I hope you find a few good friends too.

I love to run. I really do. I ran to “stay in shape”. I ran because I’m awful at other sports. I ran to stave off that post-partum baby weight. But somewhere along the way I realized I just love to run. If I’m stuck on a parenting problem (i.e. How to stop my kid from talking back) or a household problem (i.e. How can we rearrange the living room to accommodate the new furniture we inherited) or a money problem (i.e. How can I find a job that combines what I love with being available at 3:00 to pick my kid up from school) I run.

You know what I love as much as, if not more than running, - my running buddies. Some of the sweetest people I know run. People who will wait for you as you duck into a store to use their restroom on a long run. People who will give you water when you run out. People who will slow and walk with you when you are having a tough day, but challenge you and encourage you when they know you have more in you than you are giving on race day. Long hours training have led to some amazing conversations, some very personal realizations and some incredibly funny and embarrassing stories. Knowing your friend is on the corner, in the winter, in the dark, early in the morning, is certainly reason to get out of bed. Running friends truly are the best.

I hope that at the end of this program you have a successful race. But more importantly I hope that you also learn to love running even more and that you have built some lifelong friendships.

Best in health,
Pamela Geernaert
Frederick Steeplechasers Running Club

FREDERICK STEEPLECHASERS RUNNING CLUB MISSION:

Promoting Running as a Healthful, Challenging, and Enjoyable Activity!
